

GMax™ II ProContractor

Top of the line Petrol-Powered Airless Sprayers

WORK SMARTER THANKS TO THE LATEST INNOVATIONS

- Keep the sprayer on the job site and out of the shop! The ProConnect² pump installation and removal system allows you to change the pump in seconds.
- Monitor the performance of your investment more easily – the LED display is bright and easy to read.
- Comfortable and time saving, the QuikReel™ hose reel allows you to save time and money.

Heavy Duty Applications

GMax™ II ProContractor

Petrol-Powered Airless Sprayers

It's for **YOU**, the smart professional, that Graco keeps reinventing spray equipment technology. Because we know you're looking for the latest innovations to help you finish jobs faster, and with less fuss and fatigue.

The **ProContractor Series** of our GMax II range include top of the line innovations, for top of the line professionals that aren't satisfied with "just" high quality technology, but demand more.

Choose the right unit...

The GMax II range is ideally suited for high production professional contractors who demand uninterrupted performance with freedom from electric power.

The GMAX II 3900 (120 cc) is the perfect sprayer for the professional paint jobs on new residential construction job sites.

The GMAX II 5900 is a step up from that. With its 160 cc Honda engine, it delivers the output you required for larger commercial paint projects.

Along with its high performance 200 cc Honda engine, the GMAX II 7900 HD is equipped with a heavy duty pump, and as such can easily spray all thicker coatings as well as the whole range of primers and paints.

... and go for the ProContractor Series for ultimate comfort and luxury!

Have a look at the latest innovative features we've added to the ProContractor Series of the GMAX II range.

This is what distinguishes you from other professionals. This is where you save time and money. This is where you stand out.

QuikReel™

QuikReel™ Integrated Hose Reel

Work more comfortably and more efficiently. Roll out and up in a few seconds up to 90m hose - spray in a range of 180m without moving the unit, and get in, out and on to the next job site faster!

PRO CONNECT²

ProConnect²

Keep the sprayer on the job site and out of the shop!
The ProConnect² pump installation and removal system allows you to change the pump in seconds, saving valuable time.

SMARTCONTROL™

SmartControl™ 3.0 with LED display

Protect and monitor your investment more easily, with the bright and easy to read LED display that shows the job/lifetime/liter counter and the self diagnostics provided by the new and improved "brains" of the unit - the SmartControl 3.0.

Materials & Applications

The GMAX II PROCONTRACTOR series are ideal units to spray a full range of coatings on residential, commercial and industrial jobs.

Spray acrylics, primers, emulsions, waterborne and solvent based paints with the 3900 and 5900, or move up to the 7900 HD version and be able to handle most common anti-corrosive and fire retardant paints and airless plasters as well!

All units
equipped with
30 METER
hose

On-Board Toolbox

Convenient storage container keeps tools, tips, filters and accessories where you need them most.

Endurance™ Pump

Graco's proven and reliable piston pump technology with LongLife-V packings. QuickAccess™ intake valve to easily clean or clear debris. Spring loaded for better pump efficiency.

GOOD TO KNOW

EXTEND YOUR SPRAYING AUTONOMY

When used with a hopper or container suction kit, you can work for longer periods of time before refilling. Use for overnight storage or to transport your material. You will save energy, time and money.

! TIP

ALWAYS BEGIN WORKING AT LOW MATERIAL PRESSURE.

Slowly raise the pressure, but only to the minimum pressure required for a successful application. Using too much pressure can cause pack-out due to aggregated materials or dirt.

For improved pump performance when spraying paint with the GMAX II 7900 HD unit, replace the ceramic ball in the lower pump with the SST ball (delivered free with the unit).

WatchDog™ Pump Protection System

The WatchDog Pump Protection System automatically shuts down the pump when paint runs out or if the hose is damaged.

- Prevents dry pumping damage
