EXTREME-DUTY MAXLIFE® PUMP

Built for the most demanding jobs, to deliver unmatched durability and life.

- Exclusive MaxLife sleeve
- Oversized clearances ensure minimal pressure drop and increased performance
- Both long-life ceramic and stainless steel ball sets included for maximum versatility no matter what you're spraying

QuikReel™

With the integrated QuikReel hose you put the sprayer where you want it and the gun where you need it.

- Hose guide eliminates twisting, kinking and coiling.
- Hose is always connected and weight balanced to not tip over
- Use only the hose you need—the rest stays on the reel
- Hand crank folds away for storage and one man loading

ProConnect™

Graco's ProConnect Pump Removal and Installation System makes it easy and fast to replace the pump.

- Eliminates costly job site downtime
- Quickly and easily swap the pump for a spare
- Pinless design needs no tools

Materials & Applications

The DUTYMAX sprayers are powerful hydraulic sprayers for high production contractors spraying a wide range of materials from latex and acrylics to elastomers on large residential and commercial jobsites. The DUTYMAX design has been optimized to efficiently spray heavy duty materials such as plasters, bitumens, fire retardants and liquid roofing solutions.

The DUTYMAX 300DI is robust, reliable and strong enough to support heavy duty jobs with heavy duty materials, even with 2 or 3 guns.

Phase Control on DUTYMAX EH300DI

The DUTYMAX EH300DI is standard equipped with a **phase indication**: a light on the control box quickly determines phase direction. If necessary, the **Quick-Change electrical plug** can be switched to right polarity enabling a quick set-up and operation. In addition, the control box **protects the motor from high voltage**, preventing failures due to dirty power sources

GOOD TO KNOW

CONVERTIBLE GAS & ELECTRIC

Simple conversion switching a gas or electric motor kit is quickly done by one person on a job site – no tools required. Flexibility to adapt to job site power: you can use the unit, regardless of power available on the job.

PLASTER SYSTEM

Extend your DUTYMAX sprayer to a fully complete plaster system with the 90 liter hopper and bag roller if you spray materials delivered in bags.

SPRAY MORE THAN 700 m² in a day...

Use the container suction set, pumping directly from a 500 or 1000 liter container delivered by your material supplier: extremely effective, especially if all built into a van or trailer.
