

Get Bartell balance and quality for less

The Bartell high performance commercial power trowels provide the contractor with reliable robust machines suitable for finishing large areas of newly laid concrete.

Available in 36" or 46" variations all trowels are manufactured from heavy gauge steel and jig welded to ensure complete rigidity, strength and long life. Gear boxes are produced from cast aluminum containing heavy duty bronze and steel worm gears. A sight glass for checking the oil level ensures the contractor trouble free operation and high production rates.

Features

- Adjustable Handle
- Heavy Duty Clutch
- Precision Balanced
- Rugged Construction

Options

- Ultra Low Emissions Muffler
- Hoist Hook

Specification BC436		
Type	Gasoline/Petrol	Electric
Power Source	Honda GX160/270	230V, 1 Phase
Power Output	4.8/8.5hp	3hp
Float Blade Size	10" x 14" (25 x 36cm)	10" x 14" (25 x 36cm)
Finish Trowel Size	6" x 14" (15 x 36cm)	6" x 14" (15 x 36cm)
Combination Blade Size	8" x 14" (20 x 36cm)	8" x 14" (20 x 36cm)
Float Pan	36 1/2" (93cm)	36 1/2" (91cm)
Operating Weight	Up to 185 lb (75kg)	Up to 185 lb (75kg)

Specification BC446		
Type	Gasoline/Petrol	Gasoline/Petrol
Engine	Honda GX270/340/390	Subaru EX27/EH34
Power Output Hp (Kw)	8.7/10.7/11.7hp	9/11hp
Float Blade Size	10" x 18" (25 x 46cm)	10" x 18" (25 x 46cm)
Finish Trowel Size	6" x 18" (15 x 46cm)	6" x 18" (15 x 46cm)
Combination Blade Size	8" x 18" (20 x 46cm)	8" x 18" (20 x 46cm)
Float Pan	48 1/2" (98cm)	48 1/2" (98cm)
Operating Weight	Up to 240 lb (109kg)	Up to 240 lb (109kg)
